

OUTSTANDING ENTREPRENEURS - GET TO KNOW:

Liss Stender is the owner and creative designer of 'Inuk Design' located in

inukDesign
- stories of the North

Nuuk, Greenland. The story of her designs is inspired by the culture of the Inuit people in Greenland – it is all about their culture. Her collection called 'The 5Elements' represents the north, west, south and east of Greenland and the 5th element is the Inuk people.

The stories of her design are from memories of her childhood in north Greenland, where she was born. For more information: <http://inukdesign.com/>

September, 2017: **The Canada-EU Comprehensive Economic and Trade Agreement (CETA)** is now in force. It is estimated that CETA will create jobs, strengthen economic relations and boost Canada's trade with the world's second-largest market, the EU. CETA is a progressive free trade agreement which covers virtually all sectors and aspects of Canada-EU trade in order to eliminate or reduce barriers. With CETA, 98 percent of EU tariff lines are now duty-free for Canadian goods. Once CETA is fully implemented, the EU will have eliminated tariffs on 99 percent of its tariff lines.
