

Kisserup's Holiday Tradition

Every year, in lieu of printing holiday cards and greetings, Kisserup donates funds to a charity within one of the global communities we are working in. This year, we have chosen Casa Hogar REMAR, in Honduras. Casa

Hogar REMAR provides care to children at social risk, by providing them with food, education, clothing, housing, and a spiritual orientation. To learn more, please see: www.facebook.com/REMARHN.

Caribbean Renewable Energy Forum

The Maritimes Energy Association, Atlantic Canada Opportunities Agency (ACOA) and Nova Scotia Department of Energy led a private sector Trade Mission to CREF 2015 in Miami. Kisserup was

contracted to provide trade consulting services and B2B matchmaking. During this conference, Atlantic Canadian energy companies meet with key stakeholders in the

renewables energy industry in the Caribbean. To learn more: www.newenergyevents.com/cref.

Colombian Agri-Foods

The Conference Board of Canada contracted Kisserup to design and lead an outgoing buyer's mission to Colombia. The mission was part of the CATRTA Program. During the four-day mission in Colombia, multiple Canadian

buyers met with Colombian SMEs in the agri-food sector. The purpose of the mission was to increase Colombia-Canada trade for agri-foods. Kisserup worked with ProColombia, the Government of Colombia trade promotion Agency. www.conferenceboard.ca/topics/trade_international/intl-cooperation.aspx

OUTSTANDING ENTREPRENEURS: GET TO KNOW

TV-2 The Coolest Band

The Danish band TV2 has to still be the coolest Danish band! Performing three concerts in Greenland, one in Nuuk and two North of the Polar Circle in Sisimiut and Illulisat. These guys are true entrepreneurs! In each concert, the band invited local musicians to perform with them on stage, that is cool empowerment and inclusion, and most of all Best Practices, way to go TV-2! For more information, please see www.tv-2.dk.

Arctic Networking & Partnerships

Kisserup was back in Greenland in November and December to facilitate Networking and Partnership seminars together with Greenland Petroleum

Services and CBCL Engineering. The seminars were made possible by support from Inuussutissarsiornermut Sulisoqarnermulli Naalakkersuisoqarfik and took place in Sisimiut, Illulisat and in Nuuk. The seminars focused on sharing Best Practices for partner models, networking and consortiums, aiming to strengthen national and international partnerships for the Greenlandic private sector. Kisserup would like to thank partners, presenters and participants: We greatly appreciate all of you taking the time to attend the seminars. For more information, please go to www.suppliers.gl.

Follow the NUUK-BOOK!

At Kisserup we love Greenland, so much that we have decided to promote Greenland by creating a new event. It is called **Follow the NUUK-BOOK!** See where in the world we share our enthusiasm of this wonderful country, sharing the Nuuk-Book with people all over the globe. Stay up to date with the NUUK-BOOK's travel by following us at www.facebook.com/kisserupInt.
